1. I didn't stuck under your feet

I didn't stuck under your feet

I remember when I was young about 60 years ago I feared you like a frog fears the rain,

I could not breathe, I could not sleep, my heart had grown old when I was fifteen but I did not crawl under your feet.

Remember, you separated me from my closer persons,

I did not see any parental love, you crossed the boundaries and tied me up, I could speak and cut off a finger but I did not crawl under your feet.

Look back at those years when you used me as a slave you sun of bear,

you used me to do what I couldn't, you beating me up was ur task and you were tired of saying that I was not a human being like you ,

but I did not crawl under your feet.

The cloud changed color after many years of losing power over me, this is the time,the time to see what I was worth to you there,

now, laugh I wanna look at those teeth like those of a lion, I ran away from you and rested I'm no longer yours.
